P. J. Blennerhassett & A. P. Bassom	The linear stability of high-frequency oscillatory flow in a channel	1
S. J. Xu, Y. Zhou & M. H. Wang	A symmetric binary-vortex street behind a longitudinally oscillating cylinder	27
G. Wu, Y. Liu & D. K. P. Yue	A note on stabilizing the Benjamin–Feir instability	45
X. Zhong & Y. Ma	Boundary-layer receptivity of Mach 7.99 flow over a blunt cone to free-stream acoustic waves	55
J. C. R. Hunt, G. G. Vilenski & E. R. Johnson	Stratified separated flow around a mountain with an inversion layer below the mountain top	105
A. Andersen, T. Bohr, B. Stenum, J. J. Rasmussen & B. Lautrup	The bathtub vortex in a rotating container	121
P. S. Krueger, J. O. Dabiri & M. Gharib	The formation number of vortex rings formed in uniform background co-flow	147
H. Luo & C. Pozrikidis	Shear-driven and channel flow of a liquid film over a corrugated or indented wall	167
S. Zuccher, A. Tumin & E. Reshotko	Parabolic approach to optimal perturbations in compressible boundary layers	189
V. Duclaux, C. Clanet & D. Quéré	The effects of gravity on the capillary instability in tubes	217
C. Schoof	A variational approach to ice stream flow	227
C. E. Caicedo-Carvajal, B. J. Glasser & T. Shinbrot	Granular flow transitions on sinusoidal surfaces	253
B. Ganapathisubramani, N. T. Clemens & D. S. Dolling	Large-scale motions in a supersonic turbulent boundary layer	271
C. Clasen, J. Eggers, M. A. Fontelos, J. Li & G. H. McKinley	The beads-on-string structure of viscoelastic threads	283
S. Deutsch, A. A. Fontaine, M. J. Moeny & H. L. Petrie	Combined polymer and microbubble drag reduction on a large flat plate	309
K. Nagata, H. Wong, J. C. R. Hunt, S. G. Sajjadi & P. A. Davidson	Weak mean flows induced by anisotropic turbulence impinging onto planar and undulating surfaces	329
D. Tseluiko & D. T. Papageorgiou	Wave evolution on electrified falling films	361
S. Dey & A. Sarkar	Response of velocity and turbulence in submerged wall jets to abrupt changes from smooth to rough beds and its application to scour downstream of an apron	387
P. G. Chamberlain & D. Porter	Multi-mode approximations to wave scattering by an uneven bed	421
BOOK REVIEW		
Inverse Eigenvalue Problems: Theory, Algorithms, and Applications, by M. T. Chu & G. H. Golub		442
